

MY STORY TIMELINE

Timeline:

Background of Hardees & I relationship before grand Wildlife Ministry Gift:

I have an extensive background in ministry and community work and sat on multiple boards and served as Director of multiple organizations operational leadership teams. The Hardees were very involved in volunteer work and giving to the ministries. They demonstrated a very dedicated and seemingly genuine appreciation and generosity in support of all the families we served. The Hardees became very close to myself and others due to their dedication and generosity to make a difference in the lives of others through support of community efforts. Over time we developed a family dynamic relationship. I called her "Momma Janet & Jordan & Claire" sisters vice versa they called me son and brother. We celebrated birthdays together, served and spent holidays together etc.

Background of Hardees and myself Initially cohabitating:

It would apx winter of 2020 that I would be the Acting Director of operations for a prominent food bank in Georgia where the Hardees also served weekly as dedicated volunteers. Janet & Jordan approached me on site one evening passionately expressing they had a major problem. They began to articulate to me that Jordan was in fact pregnant and that they were not able to get her father to allow her to keep the child. They said that he arranged to have the child aborted multiple times and they kept getting out of it but he stated the next time he would be taking Jordan there himself and it wasn't optional. Janet expressed to me that she told him Jordan was keeping the child and he stated then they both have to leave their home of 20+ years and Janet also expressed that even if we stay, the stress that Jay imposes from this situation could indeed result in a miscarriage. They were perplexed and asked if I could help them. We spoke for a while and they expressed how they don't have family here and that they needed support. I then told the Hardees "Ok, I'm really not the biggest fan of this but! In order to save the child's life I will allow both of you to come stay in my 2 spare bedrooms. That way yall can be safe,close and I can provide support and familiarity etc. They were elated and exclaimed thanks you so much if you didn't do this the child would have had to be aborted. They transitioned approximately January of 2021.

Background of gift to my company (Sole Deed):

Upon cohabitating with the Hardees we all became even more bonded. We would all have dinner together daily, share household responsibilities etc. I did the best I could to make a difficult situation manageable as possible. After some time had passed of us all cohabitating Janet came to me seemingly very heartfelt and started off the conversation saying I know everything that has happened with you and Nicole (Former Corrupt Zoo Business Partner). I have watched you for years help so many people and animals, and even now my family. I have seen how you have sacrificed and always kept going after horrendous ordeal after another. God told me to bless your ministry. It would be maybe a week or so after that conversation that Janet sends me a picture of a beautiful farm that was for sale in Morgan County, Georgia. She asked me my thoughts and I exclaimed of course it's beautiful but the price is very high but one day God will bless this animal family with a forever home of that caliber. Janet, Jordan & Claire

insisted we go look at it and that we did. I fell in love with the beautiful pastures, barn, workshops, animal adventures and was like this would indeed be an amazing forever home for the animal family in due season. Janet soon later told me that God told her pointedly to Gift this property to the ministry. I was flabbergasted and in utter shock. I told Janet, that property is so expensive, are you sure?, I am not gonna be able to get a loan for all this property etc. She said it's ok we will figure it out. I asked her if you're helping us get this property where is all that money coming from? Janet stated her parents left her a very substantial amount of money for her to do something great with and God chose this. Fast forward to apx June, 2021 we were all set to close on the farm. I had asked Janet many times along this process, "Are you sure God said do this? Did you for sure hear this?" She expressed passionately time and time again YES!!! and assured me it was the will of God that "He" spoke to her. I told Janet in lieu of closing on property that due to being burned in business by Nicole Kanoy (Former Corrupt Zoo Business Partner) the deed has to go in the ministry's name that way it's always gonna be crystal clear who owns the farm and that's the "Ministry and Animals" even after I'm long gone! This would also give sole confirmation that indeed it was an unadulterated Gift as intended. She agreed without any rebuttal or reservations. Due to there being a mortgage on the property the lender wouldn't allow my company to close on property as sole owner first being the company was not 2 years old yet. The Lender said, "Both of you can close on property together then you can immediately sign over all ownership interest to your desired new animal cooperation but the both of you will remain responsible for the debt AKA mortgage but gifted corporation will be sole owner." So at Weissman Law Firm Office Closing Table we first closed together as joint owners then at the same closing table within minutes had Attorney present the new mutually desired deed that the lender had approved beforehand and at that 2nd deed signing he made it clear that all our Ownership interest will go to the animal corporation who as of today sits as the sole deed holder of property (The Way Dynamic Animal Therapy Encounters Inc).

Background when things took a turn between the Hardees & Myself:

To this day I'm not entirely sure what exactly shifted the dynamics of our relationship but I am led to believe that the property value hyper increase and maybe some personal issues amongst the Hardees triggered their aggressive stance to dismantle and try and seize the Company's property. It would be approximately January, 2022 that Janet would approach me stating she is selling the property and that she has already had a realtor out. I expressed to Janet that we are only 39 weeks in and we have over 116 animals on this farm that we gave oaths and commitments too to be there forever home and we have a ministry of saving the lives of animals through "Wildlife Rescue Efforts" & Humans through "Animal Therapy" we can't just sell after all that is established here and the impact we will have in this region. I also stated that I can't just get rid of my exotic animals that I imported here. This was the agreed upon and gifted forever home of the Sloths, Wallaby, Patagonian Cavy Mara, Kinkajou etc. We gave them this sanctuary. I told her let's go to mediation with a lawyer we trust and we can discuss some resolution in this situation. Instead the Hardees called the police creating an illegal false report stating I was trespassing on their property and all the legal waves began from there.

The Hardees first law breaking of false reports to government agencies.

February, 2022 The Hardees began to mass call government agencies creating false reports against me. Instead of in good faith going to a mediation herself/family began to break the law to attack myself and my entire animal family. They began to create "False Reports" to government

agencies. They reported to the Sheriff's office that I was trespassing on my farm and Morgan County came out in multiple vehicles down my driveway so I put my hands up as I could tell by speed and number of cars that they were coming for me and being a young black man coming into contact with multiple squad cars I knew I needed to respond accordingly for my safety. The Hardees began to also call other government agencies creating false reports of animal cruelty and complex levels of animal neglect i.e Morgan County, Animal Control, Department Of Natural Resources, and allegedly the United States Department Of Agriculture. Due to the nature of the calls the government agencies put me under investigation and sent out multiple enforcement officials to my farm including the head of Department of Natural Resources. Upon being put under investigation I was not found guilty of any crimes of neglect or any kind infraction. Due to the dynamics of the situation with the Hardees on my land and law enforcement nor a judge would remove them for the sake of my animals safety. The Department of Natural Resources said that all my exotic (Wallaby, Patagonian Cavy Mara, Kinkajou, animals had to be removed off the farm in 7 days or they would be coming to seize them and I would no longer have ownership of them. They stated it was in the best interest of the animals being that the Hardees and their accomplices had full access to the animals and the USDA Permits Re-Inspection was 6 months out. Granted I still had over 100 other animals on our farm including "Asian Water Buffalos". (Which were later stolen by another zoo within 10 miles of my farm in conspiracy with the Hardees along with other animals as well.)

Initial Attempt to get help before the situation escalated or I was injured.

Approximately February of 2022 as stated earlier I tried to get Janet to go to mediation with me and try and troubleshoot a resolution before things got out of hand etc. We had faced a few initial barriers with the company. Janet made it clear just at 39 weeks that she wanted to sale the property in the middle of emerging and I told her 39 weeks isn't realistic to have an entire animal therapy zoological facility/Sanctuary open and running. I also told her that the zoo project here has been trying to just get footing for over 8 years and still don't have animals or land ownership yet and we are already approaching the final stages of phase one and we have a massive animal family already. I also reminded Janet this was NEVER! the plan going into all this to abruptly shut down the ministry before we even get up and going. At that time my farm provided sanctuary and permanent home to over 116+ animals, Exotic, Farm, Native & domestic species. When the Hardees & their accomplices started manipulating the animals locations and exhibits etc while I was away or at work I began to take it seriously that I needed help. They were breaking the law creating false reports with law enforcement etc. Threatening myself and my animals well being etc. I went to the superior court of Morgan County to request paperwork for a restraining order against them to be off my land that I am the sole deed holder too through my company. Morgan County Superior Court had me contact the county POC "Love shouldn't Hurt" if I'm correct and was advised by "Allison" (County POC) that I wasn't eligible for a restraining order because an act of violence had not occurred and I wasn't injured. I explained my situation and all the animals and told them these people are very dangerous and myself and my animal family's lives could lie in the balance of this order being granted. County POC said sorry not eligible. It would be maybe 2 weeks later that I would be injured in an altercation with the Hardees on my property and reached back out to County POC letting them know the situation and that I'm now eligible for that restraining order despite the fact I was trying to avoid being harmed "Allison" (County POC) stated that even then I wasn't eligible. If I'm correct she stated I had to be a woman affected by violence. So I spoke to law enforcement seeking help before things got out of hand they said there isn't anything they could do, contact Judge Holt. Animal control instructed me to contact Judge Holt as well. It would be March 15, 2022 that I

would arrive home and discover that all of my company's animal exhibit fence panels were stolen, along with custom avian cages, and also my exotic Rhea Birds that were imported into Georgia. Law enforcement did nothing in regards to the theft knowing I have full ownership and that they have been out to my property several times thus far. They didn't even go into depth of questioning why did you all allow this without Permission on the property to mass steal all the company's assets especially if you felt you had ownership interest? The next day March 16th at 9:52am I emailed the Chief Magistrate Court Judge Connie Holt **(NOTE Emails Are Backwards Scroll Down To First Email It Message Thread Starts With Last Email)**, " Email reads: Fwd: Please Help Us!!! (Judge response)

Mr. Williamson,

There is possible that you could apply for an application for a criminal pre warrant hearing for a good behavior bond or for theft

or you could file for a civil claim for a dispossessory/eviction against the tenants. The cost of the pre warrant hearing is \$20

and the cost of the dispossessory/eviction is \$96. That is the procedure that I can give you. But I can not give you legal advice.

I hope this helps.

Subject: Please Help Us!!!

Good Morning your honor,

My name is Derrick Williamson and I am the Founder & CEO of "The Way Dynamic Animal Therapy Encounters Inc" located here in Morgan County you may have heard of my touch down here with all of my exotic animals sloths **Error! Filename not specified.**, Water Buffalo **Error! Filename not specified.** etc. I am unfortunately reaching out to you on not the best terms but I have been advised by law enforcement and animal control that you are the one that can help this facility as we are dealing with a very very difficult matter. Bottom line is I would like to meet with you on behalf of the company property and all the animals as there are unfolding on this facility that are unlawful and progressive and I can't stop them. Company assets are being stolen including animals! Here in the 10s of thousands of dollars and this family I can't seem to get off this property are using there tenant situations and false claims of ownership here to Sabatoge all the animals and myself who also resides on the facility. There has been false police reports made and several reports to other agency's and due to this family that resides on this facility's mayham unleashed has resulted in all my exotic animals having to be removed at another zoo and some boarded until I am able to get things sorted. Please!!! Help us your honor! these people I can't stop from stealing and sabatoging this property and the animals life's and well beings. As of yesterday apx \$20,000 worth of Zoo enclosure panels were stolen and also a group of exotic birds imported into GA called "Rheas" and this family won't stop.... Law enforcement and animal control says they can't stop them being they are tenants here who claim ownership. What am I to do? Despite there claims and attacks the Deed of this property is in my company's name solely and i am Owner and 100% Share Holder. Please meet with me to discuss a damage control plan maybe or put something in place to stop them from stealing and harming these animals wellbeing until the honorable courts sort out all the legal issues need be!!! PLEASE! HELP US!!!! Feel free to call me aswell at 678-760-****

Best Regards,

Derrick Williamson

Founder & CEO

It would be later that night after that ordeal email correspondence with Judge Holt that I would be assaulted on my property and had to leave in an ambulance because I didn't feel comfortable driving my truck to hospital with my sustained injuries. There was a video that showed the altercation. I told them I wanted Mr. Hardee charged to the full extent of the law before I was taken by ambulance & officers stated that they would let the courts decide and filed a "Stay Away Bond Order" on behalf of the state. Although I was the victim 100% the officer dared try and paint me as a liar in his report despite there being medical records and x-rays and sling. I was even called a liar by law enforcement including their leadership Sargeant. I did later call them out in court for gross lies on the front page of the report and Judge Holt scolded me and tried to arrest me for pointing out a false report of an officer lying on the report which discredited his biased testimony against me and my medical records also disproved his honesty and intent to help the Hardees. Despite leaving my home in an ambulance & injuries and theft and harassment and false reports Judge Holt removed me from my home to this day. A 60 Property Liz Pendance was provided in court to Judge Holt showing her they owned over 60 other properties and this property is my only one they can go to one of those 60 properties so I could continue to care for my animals and continue the company's mission. Judge Holt removed me with no apparent regard.

Complex Legal Journey of discrimination and civil rights violations Timeline:

Note: FOIA Police claim to have no records or footage of their misconduct on incident dates stating no record for most of the dispatched calls on my farm. I have SEVERAL calls to law enforcement on record from, assaults, theft, harassment, trespassing (apx 20+) etc.

Apx February, 2022

Hardees began to break the law making fake reports with Morgan County, Law enforcement and other various government agencies. (Refer to records)

]

March 9, 2022 (Initial Hearing to add Derrick & Company as 3rd Party in divorce case of Janet & James Hardee)

Rockdale County Superior Court Judge heard arguments of Respondent James Hardee and council and granted there motion to add "The way dynamic animal therapy encounters inc & myself Derrick Williamson as 3rd parties in there divorce case with acknowledgement that Janet had no interest or shares in company & side note that this is the same judge that granted her the inheritance money in the first place so he was aware the origin and status of gifting funds.

March 15, 2022 (4:07pm)

James Hardee's council filed "Lis Pendens Notice" in superior court against my property making it to where I can do nothing in regards to property and all legal avenues around property are stopped until the judge ruled couldnt sale etc.

March 15,2022 (company property theft apx 100k & animals stolen)

I arrived home and discovered that all of my company's animal exhibit fence panels were stolen,along with custom avian cages, and also my Exodic Birds that were imported into Georgia. Law enforcement did nothing in regards to the theft knowing I have full ownership and that they have been out to my property several times. They didn't even go into depth of questioning why did you all allow this david Permission on the property to mass steal all the company's assets especially if you felt you had ownership interest allegedly ?

The next day March 16th at 9:52am

March 16, 2023 (axp between 9-11pm)

Called 911 for an assault on my property. There was video evidence provided to law enforcement. I told them I want full charges pressed for unwanted contact etc.They said no they

would let a judge decide. I left in an ambulance to Morgan Medical Center Where I was treated for injuries sustained & later placed on medical disability from work. I was seen by Dr.Dennis Spencer MD. Dr.Spencer ordered X-Rays to assess injuries and upon the reading of x-rays discovered multiple injuries to my back and right shoulder. Dr. Spencer ordered that I take a prescription of 500mg Naproxen and 50mg of Tramadol and wear a medical shoulder sling to treat the shoulder sprain and acute back injury. Due to Mr.Hardees assault this trip to the emergency department cost over \$5,360.28 not including ambulance charges and prescription fees. Morgan County Sheriff's Office Filed a "Good Behavior Bond Hearing Order" against myself and the hardees despite myself being the victim.

March 28, 2022 (Apx 3pm)

Received an anonymous tip that my stolen Rhea Birds and fence may have been spotted at Nicole Kanoys new facility within 10miles of mine and that they could be seen from the road. Nicole Kanoy is my former business partner who practiced corruption and law breaking so I resigned as Vice President of Wildlife Critters Circle OF Life Rehabilitation Center and Notified her to vacate the building I had leased to her (Animals On Set) and proceeded to open my own company that operated in integrity and pure of heart. Upon receiving the anonymous tip I rode out to nicole's new location to look from the road to see if i saw my animals etc and sure as day I did! I immediately called law enforcement (Shady Dale Police Department) to meet me at the property. The Shady Dale Police Department was very disrespectful and refused to help. I informed them this is an apx 100k plus theft here and involving animals and 2 companies. They refused to show interest or concern in this matter as if they didn't believe I was the owner of the stolen property. Police would not investigate or ask for the USDA Mandated Acquisition Log that all USDA facilities must have anytime a new animal is brought onto sight showing its origin and back story. Law enforcement refused to take any pictures or conduct any form of investigation. So I proceeded to take pictures of my animals for evidence etc since police refused to investigate the matter or protect evidence being Nicole could have moved them to another facility once we left. A young man that claimed to be Nicole's son I had never met before in front of the officer cam/audio recorder called me by name signifying that this was indeed malicious and showed they knew I owned them upon breaking onto my facility to steal them along with other company assets. Due to law enforcement doing nothing and refusing to even document pictures as I began to record and take pictures of my animals, law enforcement began to harass me telling me to move my car off the side of the road although it was a public side road with minimal to no traffic being a side gravel road. I complied, moved my vehicle way up the hill to the main road and walked back to finish recording and getting evidence from the road and also confirm my animals were setting down for the night and were sleeping safe and secure. The police were on the phone with Nicole and her family was present saying we want him gone now. Law enforcement said that if I didn't leave the public roadway they would arrest me for Stalking (Doesn't that sound familiar? I.e Judge Holt). So indeed I left with no justice and mistreated by the very ones I called to help once again.

April 7,2022 (State Filed Stay Away Bond/Warrant Against Me Hearing) (case number: 2022-GB-0022,22A,22B,22C)

Deputy M. Ocon #830 & Morgan County Sheriffs office Vs. Derrick Williamson,Janet Hardee,claire hardee,James Hardee (Alleged accused parties) court date. We were all summoned to court for Judge Holt to rule on who was getting removed from my home. I showed up to court with my property deed as sole owner,Corporate Documents as sole shareholder & legal corporate division documents,medical reports and x rays,and medical disability forms from Hardee's assault incident,time out of work documents,police reports of felony thefts perpetrated

by them, evidence of false reports and harassment, video evidence of my private bedroom being broken into, camera evidence of them dismantling my cameras and breaking them, brought broken camera to court and several assault videos and harassment videos, 60 property Lis pendens order showing they own a lot of other properties etc. Hardees brought nothing to court but themselves and a blank notepad. Despite the Properties Warranty Deed filed in her country being present Judge Holt kept trying to tell me that the property belonged to Hardees. I assured her that wasn't the case and that I had the recorded deed and corporate documents present showing im the sole legal owner. Judge Holt didn't want to see any of my evidence of injuries or corporate documents etc but I insisted she see the assut video that caused me to leave my property in an ambulance she looked and said literally "Shows nothing". Deputy Ocon tried to help the hardees in preparation for this hearing by stating in police report, "I watched Derrick switch a folder from one hand to another." Implying my injuries were fake despite having doctor records and disability records and prescriptions and x rays etc. The judge pointedly quoted the police report words to me and said, what do you have to say about that? I responded, "Well your honor if you refer to the police report line 1 that reads, "Were children involved?" Deputy Ocon clearly checked the "No" box when the video clearly shows them bringing a baby into the midst of confrontation with me and if Deputy Ocon missed a major sighting like that i find it very hard to believe that he would be so intricate to observe such a seemingly minute detail vs documenting a child placed in danger? This response infuriated Judge Holt and instead of her addressing Deputy Ocon for lying on a police report she scolded me saying she would place me under arrest for child endangerment when I was the victim and aggressed in my own home. I told the courts that James hardee didn't live at my home he has a home of over 23 years in conyers, Georgia despite the fact police record has him lying stating he lived on my property with Janet while in the midst of Divorce and the fact he is on my company property and he was in an active divorce with Janet and he is on the property of the company he is suing in the Superior Courts Of Rockdale County manipulating and gathering internal evidence on company property. Ultimately Judge Holt found me guilty and placed a \$500 dollar bond on me I could sign for to be released in court with no jail time and she reversed the order and kicked me out of my own home for 6 months or until the civil case ends beforehand. I exclaimed to the judge I have animals that need special care and that can kill someone like my Asian Water buffalo. I am not just the property owner but the animal's caretaker. They know nothing about animals! Judge Holt said fine! you can go to your property to care for animals ONLY! but you are not allowed around your house but you can go in your house ONE TIME ONLY! with a police escort to get your things out. Judge Holt knew this was my only property despite them having over 60 other properties they could go to and that I owned all the furniture in the house including their bed sets etc. All custom decor for movie industry rentals in the future. I have receipts for every piece of furniture in my home & It was custom done by an experienced interior designer. I told the judge this isn't right. I have a Lis Pendance filed with the courts proving they have 60 other properties they own that they can go to. This is my only one! Judge Holt said, "You heard my orders if you violate you will be in my jail". Judge Holt gave my entire property over to the thieves and corrupt people I initially went to the courts to protect us from. Without anyone being on the deed to the property Judge Holt intentionally put my animals and their lives in jeopardy defying legal ownership and failing to acknowledge the rights of a S Corp Corporation in Georgia. Judge Holt does not have a law degree, Juris Doctorate or passed the bar exam so I am led to believe she may not be aware that her personal bias/discrimination is not permitted under state and constitutional law.

April 18, 2022 (3:22pm) (Case #: 2021-CV-2195-M)

James Hardee Council files motion in Rockdale Superior Court to "Set Aside my deed and motion for return of real property.

May 20, 2022 (Judge Holt Chambers)

I went to Morgan County Magistrate Court to request the court report from my last case. I was instructed by the clerk that Judge Holt said come back to her chamber. I was very reluctant as I didn't know why I was being asked to come back there. I just came for the report. But the clerk insisted and she opened the small gate signaling me to come through so with hesitation I proceeded to walk through led by the clerk as I had no idea what's behind their desks had never been or could see back there I was escorted to what I presumed to be Judge Holt's Personal Chambers. Judge Holt was sitting at her desk typing and said to me once we walked in very pointedly what are you doing here? (Morgan County Magistrate Court) I told her I came to request the court record and that I also wanted the camera in the courtroom footage as well. She quickly stated that they don't work. I said, "so they are just for show and aren't even functional" ? She said yes. I took out my phone to record and said I'm going to record this and she said if you don't stop recording I'm going to have you arrested! I was very scared for my safety in her office about that time many officers started coming in and surrounding me and she said I couldn't record so I told the judge and all the deputies I am in fear for my safety and she won't let me record and the officers green body cam lights didn't seem to be on so I got up and left and all the officers followed me out the courthouse as if I was a felon or committed a heinous act and I did nothing wrong as I was leaving I looked at Judge Holt and told her you have violated my civil rights and I will expose your corruption against me. Judge Holt and law enforcement lied and said that I was removed for irate and disorderly conduct etc. In a police report that surfaced recently through open records. I had no knowledge of such a bogus report and am led to believe it was created fairly recently in lieu of a new case.

June 1, 2022 (3:35pm) (Case # 2021-CV-2195-M)

James Hardee Council files in Rockdale County Superior Court Motion for default judgment and motion to set aside deed and motion for the return of real property.

October 11, 2022 (Apx 1pm) (My Big Brothers Fatal Motorcycle Accident)

My older brother Chris who was my biggest supporter who goes to court with me, and the one Judge Holt despised.

My oldest brother Chris got into a fatal motorcycle accident after leaving our house in conyers. My brother and his wife and kids moved in with me in a rental property because Judge Holt kicked me out of my home and I lost my animals due to injustice and needed support. Due to the stress the courts placed on me and being ripped from my home and animals illegally I began to grieve and hurt so much and my big brother supported me and was so patient with me as he knew and saw the day to day pain I was in from the unmerited actions of Judge Holt and the Hardees. Chris got on his motorcycle and not even maybe 3 miles down the road he got into a fatal collision with a vehicle. I got there only to see him dead on the road. At that moment I realized I lost my big brother, my best friend, my court support, my animal team manager and my best friend. No words to describe the pain I feel I was the one to pay for the funeral laying him to rest.

October 11, 2022 Continued (Incident (2) Assaulted and Harassed by Jordan Hardee Judge Interference Same Day Of Losing My Brother) (Case #202210110059)

As stated my big brother lost his life earlier in the day & I physically saw him dead on the side of the road before officers grabbed me and tried to console my shock and pain surge. I was

beyond distraught and needed to cope and find support immediately. So I of course headed to my farm to do some much needed animal therapy with my Asian water Buffalo & my other animals, the only ones that could help ground and help me cope in such sorrow of a moment. I spend time laying on my water buffalo just releasing tears and just being with them. After I pulled myself together I called my lawyer to let them know what had happened and that I'm with my animals doing some animal therapy. I also told my lawyer that I am aware of the fact that my order that Judge Holt placed against me and the \$500 bond removing me from my home had expired and that I'm going in my bedroom to be in my room & close to my animals tonight. My lawyer advised me not to say anything to the hardees but to take pictures and videos of your home to assess that everything is still intact and that nothing was stolen. When I walked into my home and went directly into my bedroom i realized that allot of my beautiful custom decor furniture was gone rugs,office chairs,desks,animal figurines,paperwork,Wildlife education books and material etc gone I also realized that Janet seemed to had moved into my personal bedroom all her clothes and shoes and personal belongings etc where in my closet and all over my bedroom. Judge Holt said I could come home one day with a police escort to get all my things but I never did because I had nowhere to put all my stuff being EVERYTHING! In the entire home is company property custom decor for visual apparel and therapy atmosphere and I have receipts to EVERYTHING! in my home including their beds and all their room furniture. I walked outside to my truck, closing my bedroom door behind me and using my far entrance door to get my bag out of my truck and when I came back inside my house I noticed my bedroom door was open and when I walked into my room. Jordan Hardee and Claire Hardee were in my personal bedroom. Jordan Hardee was actually sitting in the middle of my bed. I told them both to get out of my bedroom and that y'all have no right in here yalls rooms are on the other side of the house. They refused to leave my bedroom so I took out my camera to provide evidence of their refusal to leave my personal bedroom. Then Jordan Hardee began to reference the death of my brother earlier that day in order to gaslight me into harming her. There is video evidence of this hellacious ordeal. I even tried to leave my bedroom and they pursued me. I asked several times for them to get away from me and Jordan was yelling to me,"YOUR BROTHER IS DEAD!!" HE IS NEVER COMING BACK!!! etc I begged her to stop as i couldnt take the pain she was unleashing knowing he just passed earlier that day and I had the image of him laying there on the side of the road dead! So I circled back to my room and closed my door. She broke entry into my room assaulting me and all on camera. Yet time and time again the Judge finds me guilty of being the aggressor and implements orders against me with no evidence of legal reasoning. I called law enforcement to my home. Finally after all the corrupt officers that came to my property one just one came and saw what was happening and all the evidence and was prepared to charge BUT! The corrupt Judge Holt got involved and told him he could not charge Jordan with the crime she had committed despite the video and the officer saying he feels that's more than enough evidence to charge her. I believe Judge Holt interfered with the arrest because she has throughout this process taken this case personally as demonstrated by her unmerited gross biases even against plain law allegedly. Judge Holt knew my brother because he was my biggest supporter and came to court with me. She despised him and I think in order to mock his death and further torment me she interfered so there was no justice for myself and my late brother that day.

October 11,2022 Continued (Incident (3) James Hardee Assault) (Case #2022101100059) (Same day as my brothers death,Jordan Hardees Harassment/Judge Holts Interference and now another assault from Jay Hardee all on the same day)

October 11th continued so as of this day thus far I lost my big brother and biggest supporter, then assaulted and terized in my personal bedroom and now incident (3) all on the same day. As records reflect I have called law enforment countless times for help in many situations to

protect both myself my animals from harm,theft,torture etc but they including the Judges were of no help and continued to call me a liar and reverse orders and harrass me as the company and property sole owner. James Hardee came to my property, vandalized my GMC Sierra 2500,Tried to whip me with a fishing pole,assaulted me multiple times leaving several bruises that were documented in a report by an officer visually seeing them. Once again Judge Holt interfered with charges being brought forth against Mr.James Hardee despite the history of assaults against me in the past with him,video evidence,several clear bruises that night etc Judge Holt only gave officer permission to charge him with "Simple Assault" and said he couldn't charge him with Simple battery the more fitting charge that officer felt was the actual charge being there was physical violence that resulted in clear and evident bruising. Side Note: Assault and Battery are two separate offenses in Georgia. Under Georgia criminal law,assault is the threat or risk of violence, and battery is the physical act of violence. Any violent crime carries with it serious penalties if you are convicted of a charge. So what Judge Holt interfered once again, she dictated that Jay Hardee could not be charged Simple Battery but with a with a lesser charge that isn't applicable to the act of violence that had occured and documented bruises. The officer references her interference in the report in order to make it clear he didn't agree with the judge's decision and that it should be Simple Battery not Simple Assault but he could not undermine a chief magistrate court judge that is telling him what to charge granted its without her seeing videos or physically seeing the pictures of all my bruises etc plus she chose to dismiss all the other previous assaults and my medical records. James Hardee for the first time didn't wait for law enforcement but fled the scene that day before law enforcement had arrived being he could clearly see all the injuries he caused and so would law enforcement. All this time out of an entire department Sergeant Lash is Just and Honourable yet stuck in the midst of complex corruption. The Sergeant took a warrant out for James Hardee.

[*October 12, 2022 \(Janet Hardee Files a Application to Judge Holt for A Pre-Warrant Hearing Accusing me of Assault once again\) \(Case #: 2022-GB-0051\)*](#)

The day after all the assaults and harassments and the day of my brothers death, Janet Hardee goes to Judge Ruark (Another Corrupt Judge that serves as Magistrate) and receives application for a Pre-Warrant Hearing as herself being both the complaint and victim of assault when according to her Affidavit Narrative she never mentioned any type of harm to herself yet accused me of assault and placed her name in victom box. Janet Hardee in conspiracy with her daughter Jordan (The same one Judge Holt wouldn't let the officer charge) lied on the affidavit saying I assaulted Jordan Hardee and she had been bruised on her elbow. If you recall, on the first warrant hearing on April 7,2022 Janet and Claire Accused me of assaulting them in court. Fast forward Janet and Jordan are now accusing me of assault. According to the police report and Jordans testimony she never mentioned anything about being injured by me plus everything was on camera. The Hardees conspired the first time lying under oath DESPITE VIDEO EVIDENCE! in the first good behavior bond hearing. They accuse me of assault against them with no evidence,medical records or recording etc as I had all those things and Judge Holt found me guilty and removed me from my home and away from my animals. Judge Holt bought their lies the first time in court without evidence so they plotted to frame/accuse me of assault once again except this time self inflicted mutilation injury.

[*October 22,2023 1:00pm \(My GMC Sierra 2500 Breaks down on side of road going to pick up my late brothers obituaries For Funeral Tomorrow\)*](#)

As stated in the police report taken on October 11,2022 James Hardee on camera multiple times admits to vandalizing my truck. It would be a little over a week after his confession that I would be in my truck on the way to pick up my late brother's obituaries for the funeral the

following day that my truck breaks down on side of the road seemily a abrupt transmission problem and I just had it replaced the year before. I had to leave my truck there and catch an Uber to the printing place as they were going to be closing soon and I had to get the obituaries since the funeral was the following day and the printing place would be closed. According to the diagnostic mechanic it appeared Mr.Hardee loosened the transmission bolts so that I could drive away that day but in a short amount of time bolts will loosen further and destroy the transmission etc.

October 23, 2022 (Wrongful Brutal Arrest By Law Enforcement & Another Assault From James Hardee)

Not even 2 weeks later from the previous assaults and Judge Holt's interfering with both the Hardees Charges, I was assaulted again on my property called police and instead I was arrested as a victim for the first time in my life and also the day of my brother's funeral.

I was in my home and James Hardee showed up and started following me around the house and Harassing me constantly. James became more and more aggressive and persistent to taunt and terize me the more I ignored his constant harassment. James Hardee began to invade my personal space and started turning off the lights so I took out my recorder and started recording. Things took a turn for the worst at 8:48pm he proceeded to physically assault me grabbing me multiple times and shoving the old fashioned wall clock violently into me, then ALL ON CAMERA! screaming, "You hurt me, Quit hitting me!!" and holding his face asif I had struck him or caused bodily injury. When in fact i not once aggress him or even responded defensively physically as video documents I then followed him down my hallway with camera as I didnt know if he was going to get a weapon to cause further harm. Once he closed my living room door. I then stopped recording and immediately called the police. I have had to call police so many times for thefts and assaults that they all knew the narrative of my situation but just like the judges all agreed I was in error and wrong and a liar so they would never give me fair treatment and help, law enforcement will call me a liar to my face and try and manipulate reports asif my testimony or law enforcement calls were not worthy of their time etc.(I think that's why they now say they have no records from 90% of the times they were called out they dont want all the horrible things they said to me to get out) While I was waiting for law enforcement to arrive I went on facebook live to let my family and friends know what was happening to me and be witnesses when police arrived how they dealt with me. As I am on facebook live I notice the police lights in the front yard and I await to speak to officers but before I ever speak to officers in reference to the assault they left! So while I'm on live I call 911 back and ask how they could have received a call from me of a physical assault and deputies leave without even speaking to me or inquiring with me. Dispatch tries to cover for the department telling me,"no deputy was everyone scene," when in actuality myself and everyone in my live saw law enforcement lights in my driveway. I was very pointed with the dispatcher that you are not being honest! An officer was here and the dispatcher assured me that I was wrong and while I was on the phone with dispatch an officer pulled up and the first thing I said to him was dispatch is on the line and im facebook live weren't you here a while go ? He responds Yes, I was. " I then say,"Dispatcher! Did you hear that ? Dispatcher confirmed the acknowledgement and I said that would be all thanks and hung up the phone. The officers that responded knows the narrative of my property ordeal already but I explain this assault occurrence to the officer and he goes inside to speak with the hardees and leaves me with the other deputy to discuss what happened all over again. I know the deputy who he asked me to speak with because he has been to my property before and is very dry and facetious. Being on facebook live I tell the officer yall have been out here several times for me being assaulted or thefts and as usual yall do nothing. The officer got upset because of what I said. He says all your matters are civil and I can't break the law. I said that not

true most of my calls are due to thefts and physical assaults that's definitely criminal sir. I began to tell him what happened with James Hardee assaulting me and with an attitude he says just show me the video! So I did and after watching the video his first statement is I saw you reach towards him! I said Mr. Hardee turned off the lights because I was recording and I reached to turn the light switch back on. In the video you clearly see me reaching for the light switch "palm down" angled away from Mr. Hardee before he launches towards my hand to obstruct the light turn on to further distort visibility. Even with clear video evidence the officer accused me of reaching towards Mr. Hardee aggressing him. At that time my facebook live randomly ends and I say allowed, "dang! my live ended and walk a couple paces back on my porch to plug my phone in while talking to officer my porch plug outlet is about 7ft from officer and as im plugging in my phone the officer who was very clearly annoyed and irritated with me waited till my facebook live was cut off and pulled out handcuffs and began to walk towards me saying turn around. This officer is approximately 320 pounds if not more and as he is walking towards me with cuffs out I say Wait!!! what are you doing? I didn't do anything wrong? I called you to help me!! As I pin my back up against my house because I couldn't go back any further away he then grabs me and I yell get off me! I didn't do anything wrong!! Stop! Stop! Then as I look out the corner of my eye I see the deputy inside running outside with what I thought was a gun but was a taser. They slammed me to the ground and cuffed me and put me in the back of the police car. I was injured in the take down and asked if they could get me a medic immediately as I sustained more injury by their forceful take down. An ambulance was dispatched upon my request. I sat in the car for a while as they were inside speaking with Hardees and I finally asked an officer if I was under arrest being no one told me anything or read me any of my rights. This was the first time in my life I had been arrested. To make things all the worse the police report from less than 2 weeks prior noted that I had clear evident bruises from the previous assault from Mr. Hardee that he was charged for and them. The new injury from the assault today was the reason I called and ultimately more injury from the violent take down from the officers. I got scared and froze up when the officer was approaching me with cuffs. I wanted to say I can't be put in cuffs. I'm already injured and my body can't handle having my arms bend back while still recovering. Also based on the police report it states that James Hardee was wearing a red and blue flannel shirt that wasn't accurate his shirt was all blue and hints of white. The police just like in the last couple assaults back didn't check the broken clock just like they didn't check the broken drawer from several assaults back. The police report said that the officer took time to deliberate and that wasn't true he arrested me after seeing the video with no conversation to other lead officer who was the primary on the case and first on scene and to make the situation all the worse according to the police report **THEY WERE ADVISED PRIOR TO ARRIVAL!!!!** that James Hardee was possibly on scene and that he had a warrant for his arrest via sarg. Lash from the previous assault that he fled scene for and they saw fit to arrest me instead of him. A wanted person who assaulted me the week prior after being advised by myself upon their arrival has charges for assaulting me less than 2 weeks ago. I was transported to Morgan county medical emergency room where I was treated for my injuries. I was seen by Dr. Awharitefe Urhuogo MD. Dr. Urhuogo ordered various x rays to assess the extent of my injuries and upon the x-rays reading they revealed contusion of the right shoulder, Cervical muscle strain and lumbar paraspinal muscle sprain according to Dr. Urhuogo. Dr. Urhuogo also ordered the following prescriptions for pharmacy pickup upon discharge 10mg Cyclobenzaprine 3 times a day as needed and 800MG Ibuprofen every 8 hours. The cost of that Emergency room visit was \$6,552.42 not including 3rd party radiology bill or EMS Emergency Services Transport, and prescriptions. I was discharged and Morgan County Sheriff's Office came to the hospital and placed me under arrest after Judge Holt signed my arrest warrant while I was being treated by a physician after 10:30pm that night. Morgan County Sheriff's office were still very forceful with me upon my discharge I even asked them to not be so rough holding me and pulling me in handcuffs while they were walking me so fast to throw me in the back of quad car upon

discharge as I do have a surgical cast boot and fresh injuries from assaults and police brutality. I was re-cuffed again despite having a clear shoulder sprain etc. The pain was literally unbearable and on the day of my brother's funeral I had the responsibility of laying my brother to rest for lack of better terms. Morgan County Sheriff's Deputies transported me to the county jail where they put my phone into evidence and turned me over to the horrible disrespectful jail staff that threw me into a holding cell aka a stone/concrete room with nothing but a dirty little blanket and a denggie rubber coated mat to sleep on. Due to my depression and pain that night I layed on the concrete floor under the sink for most of my time in jail and refused to eat initially because of my grieving and having no one or nothing, not even my phone to distract or sooth me on top of not even having my animals. Morgan County Sheriff's office didn't get my prescriptions, to help me with the intense pain and discomfort but most of all as im grieving my brothers death the day of his funeral im locked away in a cell and no one knew where I was and had nothing but injuries and allot of confusion and hurt as I silently grieved in morgan county Jail.

October 25, 2022 (Bonded Out Of County Jail)

I was finally boned out of Morgan County Jail by "All American Bondsman Company"

November 9, 2022 (Rockdale County Superior Court Denies all motions for default Judgment and deed set aside 100% Win For Myself & Company)

Finally on November 9,2020 the honorable Judge Mumford ruled in myself and my company's favor denying all allegations and motions set forth against myself and my company. James & Janet Hardee were and have been working in conspiracy to defraud the courts into taking my land legally. Although they were in the midst of a 7figure divorce battle they decided to work together and even share attorneys to further pursue their false claims to my company's land. According to Judge Mumfords denial ruling he stated that James Hardee and council did not file a 3rd Party complaint but just a summons despite their claim to have done so there was no court record to reflect such claim. The Hardees and Council were trying a ploy to get me not to respond so by law the property could be turned over to Janet by a legal loophole. Although they made an attempt to defraud the courts henceforth thousands of dollars in legal fees later we got the winning verdict and kept all legal ownership rights. Interesting fact is Judge Munford knows the hardees because he is actually the presiding judge that gave her the inheritance money so he knew the ministry gifts money orgien off the rip and even stated it in court. As stated earlier on April 7,2022 I was removed from my home and framed by the county and hardees as a ploy to steal my company's land. Judge Holt removed me from my farm with a stay away order that had the conditions of 6 months or a civil case verdict. I was given a case verdict in superior court so I was free to my land and ownership and no one had any ownership rights nor claims at the time but Chief Magistrate Court Judge Holt refused to accept the Superior Court Ruling despite her making stipulations based on it and its ruling authority being higher than her court's power and jurisdiction. Despite Judge Holt's refusal to accept Judge Mumfords ruling I was clear of all litigation concerning my property ownership.

December 7, 2022 (Janet Hardee files motion to set my deed aside) (Case # 2022-SU-CA-248)

Janet and James Hardees attempt to defraud Rockdale County Superior Courts failed. So Janet decides to try again except directly this time and she filed in Morgan County Superior Courts because she knows that Morgan County Court system bleeds corruption and they detest me and my company. Janet Hardee & Council Attorney Brad Evans (Who also represented James

& Janet Hardee against me in Magistrate court in the midst of the divorce case) filed a Complaint to Set Aside Deed against myself and The Way Dynamic Animal Therapy Encounters Inc.

January 25, 2023 (Magistrate Court Hearing for my Eviction Of Hardees)

Judge Holt refused to grant me an eviction of the hardees despite having a superior court verdict rendered November 9, 2022. My Council argued that there has been an official verdict and that I was entitled to the eviction of the hardees and permission to return to my land. My council also argued that there were no active cases with myself and my company at that time. Then something strange happened. Judge Holt says, " Didn't Mrs.Hardee file a complaint against him? Attorney Evan (Janets Attorney) then says why yes we did file a complaint. My council immediately states before the court Mr.Williamson nor His company has been served or has any knowledge of this! Everyone knows I represent Mr.Williamson and his company and I wasn't even aware of this complaint. My Attorney went on to ask Judge Holt pointedly,"How did you know about this before my client or myself know ?" Attorney Brad Even immediately speaks out and says,"Your honor how can a council insinuate such a thing of a Judge " My attorney said, I retract from that issue. The preceding continued and Attorney Evans wanted us to accept service in court before Judge Holt which is an improper serving procedure. My Council argued that I do not want to have to make that decision being put on the spot before your honor and my compliance to accept an improper service be used to determine your verdict. My council argued that there is a superior court ruling that supersedes this court's authority and jurisdiction not to mention Janet nor any of the Hardees are even on the deed and haven't been paying the Mortgage just the light and gas bill that are in Mr.Williamson's company name. Despite all evidence put forth Judge Holt denied me the eviction and also banned me from being both in my home and now on my property. I spoke out to her saying i'm the primary caretaker of my animals. You know I have to go and check on my Water Buffalo and feed them etc. Judge Holt said once again you heard my order you aren't allowed anywhere on that property go figure it out.

February 6,2023 (The remaining of my animals stolen) (Case #202302080063)

I received a call from my nabors who were trying to help me care for the animals because Judge Holt removed me from my farm all together. They were in tears and began to say,"They're all gone!!" I said wait,"What!! Who! They exclaimed,"Samson,Japhari,Tyson,Golieth,Turk,Jasper,Teddy ALL GONE!! They took them. Those animals were my animal family, my heart,my therapy, my strength through the process of grieving my brother's death and coming to terms with the injustice of this whole ordeal. I fell to the ground and just screamed noooooooooo!!!!!! They were all I had left. I got up and rushed to the car and sad to say I never made it to Morgan county. I was under so much stress,hurt and worry I got into an accident and didnt make it to Morgan county so the neighbors had to make the theft report for me. I wasn't even allowed on my own property to meet the police or investigate their theft. The Hardees and Nicole Kanoy conspired march of 2022 and stole my animals and company property and then after Judge Holt gave them 100% free rein of all my company property,assets and animals and made it clear I wasn't allowed aloud anywhere around my property they struck again except this time my 4 Water Buffalo that are trained in sign language and my Highland Mini Cow (who was imported into Georgia),Jersey mix cow and my african spurred sulcata tortoise all stolen off my farm because I couldn't be there to protect them. Nicole Kanoy, my former business partner, is the reason I opened my own company and left her corrupt animal sanctuary. Nicole Kanoy aided the Hardee's by physically carrying out the theft being you needed to be an experienced wildlife wrangler to steal asian water buffalo. I

often think of the fear, confusion and hurt my animals felt being ripped from what we promised to be there forever home. Nicole Kanoy posted my animals for sale on her personal facebook page and I received the screen shots of Teddy, my mini highland cow that was imported into Georgia. I received an anonymous tip that Nicole Kanoy and the Hardees sold Teddy to Emerald Coast Zoo. I reached out to the owner and he confirmed he had Teddy and that he paid Nicole Kanoy \$3500 for him. The zoo owner said I can get him back if I give him the \$3500 he gave Nicole Kanoy and have Teddy back but I told him I'm not allowed on my farm so we have no home currently so no point in trying to bring him back now despite the money.

On February 13th/14th, 2023 (I take my injustice story public via social media In Hope Someone Could Help Us)

Through all the assaults, hospital visits, court cases, law enforcement calls, thefts I received no help from any form of government. So as much as I didn't want to take my messy unfortunate situation public I felt I had no other options. So I started posting my story on social media videos, evidence, storytimes, explanations proofs. My story of injustice began to aggressively go viral several millions and millions of people started visiting my pages joining the fight for justice. According to Google we have received over 1.2 Billion views thus far but still no justice. I posted one video of the night of my brother's arrest and Jordan was in my bedroom sitting on my bed mocking my dead brother and I attached it to the video of the officer telling me he can't charge her that night because Judge Holt says he can't despite him wanting it to and it went mega viral. I have even been on major shows. For the record I utilized my first amendment right to freedom of speech. I never promoted violence, never cursed at anyone or even used the terms, racist or bigot etc. I just simply posted the facts for the world to see and help support Justice for this animal family and for my late brother.

February 22, 2023 (Judge Holt Recused Herself From My Case) (Case # 2022-AW-0507)

Due to the undeniable injustices Judge Holt was involving and implementing against me the general public on their own volition began to email her inquiring of her alleged corruption. The general public suspected that there was bias in my case and that my civil rights had been violated etc. Judge Holt stepped down from my case and acknowledged that there is a conflict of interest to this day and hasn't stated what that conflict is or why she waited so long to acknowledge it.

February 24, 2023 11:53am (Judge Holt Files A Temporary Stalking TPO Against Me) (Case # 2023SUCA050)

Judge Holt decides to file a stalking charge against me as a scare tactic and to further violate my civil rights. Judge Holt is a Chief Magistrate Court Judge and an elected official so she isn't covered under the same laws and defamation statutes as a regular person. Even then I have never acted out of character with Judge Holt or raised my voice to her or threatened her, never called her anything other than corrupt. I didn't understand how she felt she could have any merit filing a stalking TPO against me or the thought she could actually win that case as an elected official. Judge Holt went as far as to lie in her filing stating I came into her private chambers not once but twice without her permission. Why would I EVER!! go back into her office after the way she treated me and wouldn't let me record her and those officers had their cameras off. Judge Holt failed to mention that I was reluctant about going into her office. The clerks said, "Judge Holt said come to her office and they pulled the gate forward for me to walk through. I never wanted to see the judge. I just wanted the court report and camera footage all I was there inquiring about. I WOULD NEVER!!! have went back into her office again without my lawyer, she is a liar!!

UNDER OATH!!! Judge Holt stated in her filing that she felt threatened and fear for her safety and her office clerks safety just as the Hardees claimed in the past against me. Judge Holt even says in her own words in her filing that "Mr. Williamson had not directly contacted me" So how did she think she even had a case? Stalking is a major offense and can be difficult to prove in court. Despite her lack of evidence and even stating that I had never directly contacted her, Superior Court Judge Alison T. Burleson granted her the requested Temporary TPO and set a court date for March 15, 2023 Before Judge Holt's other friend the corrupt Judge Stephen Bradley. Only reason Superior Court Judge Burleson signed the temporary TPO is because she is also Judge Holt's friend and aided Judge Holt trying to help her cover up her corruption. There was no grounds to grant this bogus Temporary TPO.

February 28, 2023 (Violation Of A Temporary Protective Order) (Case # 202303030017)

Judge Ruark calls Sergeant Tiffany J. Alliston with the Morgan County Sheriff's Office to advise her of her findings of me in violation of the Temporary TPO from Chief Magistrate Court Judge Holt.

March 1, 2023 (Jay AKA James Hardee Files For Divorce In Morgan County Superior Court List myself & company as Respondents again) (Case Number: 2023-SU-CA-057)

Jay Hardee & Janet Hardee tried to defraud Rockdale County Superior Court into taking my land using a collaborative divorce case working together for the common goal of stealing my land from my company. In December of 2022 a verdict was rendered and they lost their case against myself and the company. The initial Divorce was filed by Janet Hardee as petitioner and when things went south she let her lawyer go and James Hardee was the only one with an attorney and Janet worked with him to try and get the land from me and upon their denied relief verdict. They conspired that due to Rockdale County not granting their motion to set my deed aside based on all the corruption and bias that Morgan County Court Systems perpetrated against me, they felt since Morgan County Judges were for them they could win. Janet and Jay Hardee Jointly filed to dismiss there Divorce case in Rockdale County, Georgia and File a new divorce case in corrupt jurisdiction of Morgan County, Superior court with the same corrupt Judge that will 2 weeks later find me guilty of stalking a Chief Magistrate Court Judge of morgan county and giving me Georgia's maximum 12 month stalking order. In James Hardee Complaint he lists The Way Dynamic Animal Therapy Encounters Inc & Myself as respondents and desires to set my deed aside once again.

March 15, 2023 (Judge Holt's Stalking Order Hearing before Judge Stephen Bradley) (Case #2023SUCA050)

Despite having no hard evidence or proof that I Derrick Williamson personally stalked the Chief Magistrate Court Judge, I was found guilty of the maximum Stalking sentence tenare in Georgia which is 1 year or 12months total. I was told by Judge Stephen Bradley that I am not allowed to go anywhere near the magistrate and superior court anymore for a year. Judge Badley said you can come on this property only when I rule on your property but other than that you are to stay 200yards away. So I would no longer be able to conduct business in the court of Morgan County because I couldn't go inside to request documents, inquire of filings or hear any cases in Morgan County etc. This was a ploy in conspiracy with the Hardees and Kanoys to steal my land and animals by defaming me in the media, courts and wildlife world and ultimately restricting me from using the courts to settle issues and conduct business or inquiry in my county that I own property in. Judge Stephen Bradley was very well aware that the Court sits in the midst of the

Madison Square essentially so if we were being technical I wouldn't even be allowed in other government entities that are close by due to the 200 yards from court rule. Judge Stephen Bradley knew what he was doing he was helping his corrupt counterpart to further defame and strike fear and bogus charges on me. In the beginning of the opening case my Attorney spoke with Judge Holt's lawyer (Who happen to be the county attorney) and told him, She would be requesting venue change because this court does not have jurisdiction in the matter despite the conflict of interest of her counterpart ruling she removed him from his home in Morgan County almost a year ago and law reads that after 6 months a venue jurisdiction must be the residency of Respondent in Stalking cases. Judge Holt's counsel didn't know that she had removed me from my farm almost a year ago and that I have resided in Rockdale County. In front of everyone in court Judge Holt's County Attorney walks over to Judge Holt who was sitting off to my left and told her, "You realize you removed him from his home almost a year ago so she is going for a venue change," Judge Holt was infuriated in front of everyone in the courtroom. She Outbusted and began to yell at her young county Attorney, saying, "I don't care!! This is crazy! Just dismiss it! just dismiss it!!" Myself and the entire courtroom heard her yelling at her lawyer including my lawyer. So my lawyer calls her county Attorney to the side room and asks, "She said she wanted to dismiss the case right?" Judge Holt's counsel says, "She is just frustrated, we will wait and see what the Presiding Judge says." Note! this the reason Judge Holt was infuriated at the venue change because she knew that it would then go before the Honorable Judge Mumford of Rockdale County that gave a verdict in my favor and she knew as a lower court she undermined his superior court ruling to further violate my rights and aid the hardees in file play. Once the presiding Judge Stephen Bradley took the bench and court was in session my Council began to argue the fact of law that this court did not have the jurisdiction in the matter to preside over this case being case law dictates that in cases such as these it must be filed in the country of accused stalker residence and it's evident that Mr. Williamson resides in Rockdale County in fact that's where she had him served and it also remains a mystery how she found him being he has never used that address on any documents or records etc (Note: It was the address where I lived before the farm and the address I allowed the hardees to move in with me at to help them initially) My council continued on to argue to the courts that Morgan County Superior court didn't have the jurisdiction to rule based off laws applicable to the case and the fact Judge Holt removed me from my residence in Morgan County almost a year ago and law stipulates 6 months or more requires venue change. Judge Holt's council argued in agreement with the law but challenging if I actually moved out of Morgan County and argued I could be staying at a friend's house in Morgan County (According to Judge Holt). My Council made it clear that wasn't the case and Judge Holt knew as well. That is why Judge Holt had him served in Rockdale County Plus Mr. Williamson has a lease on a conveyer property that shows clear evidence this is literally cut and dry and she asked the courts to accept the request. Once Judge Stephen Bradley heard the arguments it was clear despite the law he wanted to help his counterpart who rules in the court below him on the 1st floor he had to honor state law and acknowledge the conflict of interest especially being Judge Holt binds her cases over to him & it's obvious the court did not have jurisdiction being I wasn't even a resident at the hand of Judge Holt almost a year later despite being the sole deed holder of my property. But instead of a grant/acknowledgement of the venue change he says something very unusual. Judge Stephen Bradley tells the court, "along the lines of I may not have the jurisdiction in this matter but I do hold the authority to hear such matters so I am denying the venue change, I will preside over this!" Myself and my lawyer sat in complete disbelief of what just happened. The entire courtroom was filled with county officials more police officers than people and also Judge Holt & Judge Ruark hired several personal bodyguards to surround them in court. They tried to intimidate me, I showed up in court alone and quite literally didn't say one word even when Judge Bradley directly addressed me with an accusation that I will reference later just said yes sir. After Judge Bradley shocks the court ruling he won't allow a venue change Judge Bradley

encouraged that we may want to come to a resolution before trial as though the verdict may not be favorable so its best to settle apart from ruling. We entertained a settlement offer from Judge Holts council that pretty much stated Judge Holt would drop the stalking charge against me if i agreed to take down my social media accounts that has over a 1.2 billion views,likes,comments,and follows etc and agree to not make anymore evidence videos about her and alleged corruption. I was having a hard time accepting this offer as the people were sharing my story sending me encouragement and being there for me when the very ones of power wouldn't help but instead further hurt me. My council went back and forth with her council on settlement deals trying to draft a resolution much time had passed and in my heart I couldn't let Judge Holt get away with all that she had done removing me from my land,having my animals stolen,defaming me,arresting me etc someone had to stand. My Attorney told me very pointedly that we have the law on our side and her lawyer isn't the most seasoned criminal law attorney but there is real bias here potentially and if you are found guilty it will carry allot if weight you have to be prepared for that. As we were still discussing the settlement offer Holts Attorney comes in and says nevermind we going to trial. So we got geared up for court my attorney did the most amazing job I have ever seen in court articulating and defending me of such a crime that I didn't commit. My council argued before the courts that Judge Holt is an elected official and subject to scrutiny, my council argued that I had a right to freedom of speech and even both Judges agreed that I could say whatever I wanted to say about an elected official, my council went on to argue that Judge Holt herself stated in her filing that Mr.Williamson has never reached out to me personally yet a stalking charge is brought forth against me, my council argued I had no prior criminal history of this nature or any convictions etc. While my attorney was making arguments Judge Holt interrupted multiple times and wouldn't let my lawyer finish it got so heated in the court room Judge Holts from Judge Holt's rage my lawyer had to ask the Superior Court Judge to intervene and have Holt be silent while she spoke to the courts he passively asked Judge Holt to let her speak. My lawyer addressed Judge Holt and said your making this very difficult please let's conduct ourselves in a professional manner as this court should dictat. My council made it clear I had done nothing wrong to merit such an accusation and that there was no grounds to find me guilty being I never called her anything other than corrupt and that that is covered under my 1st amendment right and even more so her being an elected official. Then Judge Holts County Attorney began to litigate stating that I insighted several people to reach out to Judge Holt to threaten her and cause her harm. Judge Holts attorney went on to say that I had broken into Holt's private chambers not once but twice,which was a 100% lie as I would never have gone back to her office after she made me come in there the first time. Judge Holt lied multiple times on me under oath stating that I called her a racist etc several derogatory names which I had not, even if I did it was covered under my 1st amendment right that should protect me in cases like these. Judge Holt and her council made so many bogus accusations of things I said or did that were apparently not even true or had any merit to the case. All Judge Holts Council accusations etc were easily rebutted plus they had zero proof to back their accusations of me saying and doing the accused things. But Ultimately my first amendment right was violated when a Judge gave another Judge permission to Temporarily TPO me then ultimately Judge Stephen Bradley finding me guilty and giving me the maximum 12 month order in Georgia. Page 5 of Judge Stephen Bradley order was filled out and attached was my Social Security Number and demographics etc to be sent to the National Crime Information Center where I would be added to the Georgia Protective Order Registry "watch List" for convicted Stalkers. The order dictated that if I violate I could face up to 10years in prison and 10k in fines for and an upgraded charge of aggravated stalking. Judge Stephen Bradley told me to take down my Tik Tok account content that pertained to her corruption and to not post anymore or I will be found in contempt. Judge stephen Bradley did this in order to punitively try and cover up what Judge Holt has done and stop the public accountability to her elected county position. Judge Stephe Bradley didn't

even look at any of the videos in question or acknowledge he had a Tik Tok account and Judge Holt didn't have a Tik Tok account either. Judge Stephen Bradley said something in court that was completely out of pocket and gave slight insight to his unconstitutional ruling against me. Judge Bradley looked at me pointly in court and said to me, "You must agree with me that you have painted quite the picture of yourself" when in actuality I have never seen him before or been before his court I have no criminal record and have never been in trouble with the law a day of my life until my case. I was left to assume he meant the court filing that James Hardee filed against me 2 weeks before his verdict and also the wrongful police arrest the day of my brothers funeral which I had not been found guilty of yet" According to my knowledge it is improper for a judge to base ruling on other cases that have not been litigated or doest have to do with case before them. I didn't say anything back to him as he had convicted me according to his personal bias and belief and to protect his fellow county counterpart Judge Holt.

April 11, 2023 3:24pm (Morgan County Sheriff's Office Denies Me Records)

On 04/11/2023. I go to Morgan County Sheriff's office to request and get all the police reports that were in reference to my property from January, 2022 to present and the County clerk/official proceeds to tell me you can't request them person I challenge her on that and told her I have in the past and I can fill out the hard copy form that office keeps on hand etc she eventually gives me the Open records request form to fill out. Some time later after she spoke with multiple supervisors she handed me the cover pages of police reports but not narratives. I let the county official know, "you gave me cover pages and I need the actual narratives that state what happened and what law enforcement discovered or documented etc. The county official tells me that police report narratives are not subject to open records requests. I began to record and she tells me not to record her granted she is public works official and tell her the camera is facing me and she proceeds on camera to tell me she wont give me any police report narratives because they are not subject to open records request I ask her for clarification multiple times and she continued to say that. I left without any narrative records. Although I saw the corrupt Captain Sellers at the office and she went back to speak with them multiple times. Captain Sellers called me later to inform me the county official was wrong. I could come in person and request and I could get narratives. I believe they were just trying to further violate and harass me as a department as they have done so much to me as is in the past.

June 6, 2023 1:06pm (Captain Sellers refuses to cooperate)

Captain Sellers with the Morgan County Sheriff's Office called me at 1:00pm. He was returning a call. I left a message with the person over records but I assume she didn't feel comfortable speaking with me so Captain Sellers returned my call. I told Captain Sellers that the reason for my call was to get clarification on why through my FOIA Open Records Request I haven't received all of the visuals, footage, Reports from all my 20+ law enforcement calls. The Captain stated that the department didn't have any of the records except the one provided and that the records pertaining to my arrest is an ongoing investigation and that maybe one or two others are not covered in FOIA and that the state does not have to adhere to FOIA they have there on guidelines and laws they follow. I asked again for clarity, "out of almost 20+ calls and altercations this department has no record or reports or audio or body cam footage of any of them except these 4 incidents. He confirmed. I told Captain Sellers I will need this in writing and told him I will be sending him an email to confirm my understanding of what he is telling me is correct. I asked him for his email and he says he isn't going to give it to me and that he didn't want to be involved in all the mess I had going on. I asked him to please provide it 2 more times. He said no and I asked, so if I understand correctly you are denying to give me your public work email

as the captain over records and office etc. He said,"absolutely" Said alright thank you sir and ended the call.

July 6,2023 9:07am (Formal Complaint Against (3) Judges Submitted to The Judicial Qualifications Commission Of Georgia)

I was advised that the Judicial Qualification Commission is the review board that holds Judges accountable for misconduct. I submitted formal complaints against all (3) Judges in my case. Judge Connie Holt for interfering with arrests multiple times etc. Judge Stephen Bradley for unlawfully finding me guilty of stalking a Chief Magistrate Court Judge giving me the maximum 12 month TPO Stalking order taking away my right to bare arms and barring me from coming into the courthouse to handle business and request documents etc. Lastly filed a complaint against Judge Alison Burleson for immediately granting the initial Temporary Stalking Order for Judge Holt despite her not having any evidence or acknowledging the conflict of interest being Judge Holt is her fellow Judge just as Judge Bradely is as well. Judge Burleson is now the presiding Judge for my criminal case "The State Of Georgia Vs Derrick Williamson" Obstruction charge the day of my brothers funeral law enforcement arrested me for the first time in my life.

October 2,2023 Complaint No.23-691(JQC Director Courtney M. Veal Rejects my complaint personally without allowing the JQC review board to hear my case for proper evaluation)

On October 6, 2023 2:07pm JQC Staff Attorney Yosra Khalifa emails me the formal rejection letter from Director Veal. For some unknown reason JQC Director Courtney Veal personally rejects my complaint against Judge Holt. Director Veal did not even allow my case to go before the Judicial Review Board members for an evaluation; she personally dismissed my complaint. On October 27, 2023 4:07pm I sent this email reply to staff Attorney Yosra Khalifa that states,"Please give me a call. I would like to appeal the directors decision. There were many elements that I highlighted that went much further than just a wrongful eviction. What is the status of the other judges that I filed complaints on? I would like to request open records of everything used to produce this rejection decision by the director. Why did a board not make this decision ? And lastly I want the Oaths of office and Bonds for every individual that was a part of this decision and contributed to any part of my complaint as it's clear further action must be taken. Thanks so much I look forward to your prompt responses on how to apply for these documents and action. Instead of Staff Attorney Khalifa replying to me, the director herself emailed me back stating she allowed her panel to review her decision to not allow them to hear my complaint and her judgment to reject my claim. Director Veal did not state in her email the feedback of the panel but just the information that she did allow them to do what I would assume to be a quick scim over being I inquired on a Friday October 27th,2023 at 4:07pm and they close ealy I presume Friday and don't work the weekends. My request for a panel explanation wasn't on their radar till Friday afternoon. How did an entire panel convien and go through ALL! these legal documents and reports etc when Director veal never even let them see the case beforehand ? Director Veal was very clear in her last email to not email her or her staff attorney anymore but to use the general JQC mailbox/email.

Jay AKA James Hardee Tax Fraud Explained:

The Hardees are Multi-Millionaires they own over 60 residential and commercial properties all documented with tax assessor's office and also in this case there are Lis Pendens filed on 60 properties and 61 including mine. Jay Hardee has been committing tax fraud for a long time. According to his tax filings he only pays taxes on 8 of the properties and hides the rest in fact he hasn't paid taxes for the last couple years due to constant tax extensions. Jay Hardee has 30+ duplexes and they are all filled with tenants that pay a minimum of \$900 a month. Jay Hardee

has all the tenants pay cash or money order to ensure that the income is not tracked through virtual transactions or accounts. Jay Hardee makes over 54K a month and all non-taxed income not including the movie rentals of his commercial properties. The Hardees also own 2 planes, a commander & a bigger plane, a Murrage. According to sources Jay also rents out an airplane hanger to other pilots and that is also non taxed income along with a myriad of other tax invading money streams. It would be apx. Summer of 2021 that Janet Hardee would go and file a police report against James Hardee for fraud of using her deceased fathers identity to open and manage an account that he collects all of these property water bills as he was illegally impersonating her late father cashing checks in his name etc. **These properties can be found in the Liz Penance filed in Rockdale County Superior Court of Georgia. Divorce Action Janet W. Hardee (Petitioner) Vs. James Edward Hardee (Respondent) & Derrick A. Williamson And The Way Dynamic Animal Therapy Encounters Inc (3rd Party Defendants) Civil Action File Number: (2021-CV-2195-M).**

Jay AKA James Hardee Illegal Pornography Scandal:

Despite Morgan County Courts belief in James Hardees integrity and support of him. In reality Jay Hardee is indeed a very sinister cunning con-man. James Hardee was arrested in apx the early 2000s for practicing medicine without a license but little did they know that was the least of what he was actually doing. Jay Hardee is one of the Top 5 Founders of the OBGYN Pornography Niche Creation. Jay Hardee was having woman he rented to come into his makeshift medical office where he would perform gynecological exams on them and also film himself inserting medical OBGYN medical tools and toys inside of the women without their consent while filming them then post the videos to an underground illegal OBGYN Porn Niche Site. The women all banned together and brought forth charges against Mr. Hardee and the state did arrest James Hardee and charged him with practicing medicine without a license. The case was so bizarre that it was covered on the local news stations granted they didn't know what was really going on. Jay Hardee immediately hired a high powered local attorney named Micheal Waldrop who is now deceased. Jay Hardee paid Attorney Waldrop a very high price to make all this go away and scrub his record so that it can't be easily found. James Hardee then paid off all the women who accused him of unwanted contact and filming without consent. Court records even has a filing of Jay Hardee petitioning the courts to return all of his OBGYN Medical Equipment needless to say the courts released all the equipment back to him not being a medical provider despite his previous charges, It is believed to this day that he has set up another medical clinic and has made millions that is hidden in accounts offshore as a pornography niche founder.

The Psychological & Physical Toll This Has Had On Me:

This will be the first time I begin to shed light on a personal note of my deep rooted sorrow that has plagued my heart and life. This ordeal is so unbelievable that I find myself in shock at times that i'm the one having to undergo such complex brutal injustice. I am trying to be as strong as I possibly can but one can only take so much pain before they break. I have come to the peak of my tolerance of pain, suffering and anguish. They have strategically taken everything from me, My Home, my animal family, my freedom, my health and lastly they have taken the one thing I thought the constitution alone could protect me from and that is my freedom of speech. The courts of Morgan county have violated me as a human being and as a citizen of the United States of America. Judge Holt and all other judges involved have intentionally moved against me

and my ministry weaving out of the law for bias reasoning and into the law for enforcement of unethical implications. Judge Holt being a over 25+ year judge managed to influence all her friends of power to support her as she clearly breaks the law to inflict torment and sorrow on me. Due to her interference I have lost my animal family and time with my family etc have missed all the holidays in my home over a year as she has allowed non deed holders to keep,steal,and harm myself and my animal family. I finally reached my breaking point in February of 2023, I was silent the whole process of this as i didn't want to be in the media but they violated and harmed me on every front so much I had no choice but to take my injustices to the public in hope someone of influence would help us. My final straw was in February,2023 when Judge Holt from the previous Eviction Hearing decided that I'm not allowed even on my land with my animals after she had already kicked me out of my home. My animals were all I had to cope and love though the pain of loss and constant injustice and she took me from them when I needed them most not to mention we were at a Dispossessory hearing of the hardees not a stay away or warrant hearing. It wouldn't be much time after I receive a call from my nabors out on the farm all my animals were stolen. They were all I had left and Judge Holt let them take them as well. I then got on social media because I needed to find my animal family. To this day I don't know where they are except one that was sold to a zoo in florida. Janet refuses to respond to the interrogatories and explain what they did to my animals. This situation of being seperated from my animals has caused complex levels of hurt and depression that I rely on a higher power to ground me and help me cope through this. Since Judge Holt kicked me out of my home well over a year ago in order to cope personally and stay/feel connected to my animals I refused to sleep in a bed over the past year I have slept on a blanket pallet on the floor despite having a california King Golden Elegance Bed for over a year now. I refused to sleep in a comfortable bed every night knowing my animal family was ripped from their homes unjustly, some even lost their lives. I have vowed to myself that until we go home I will continue to share the discomfort and displacement that all my animals have had to experience. This may seem bizarre to some but helps me to not feel completely helpless to my animal families suffering discomfort being away from our home. I have horrendous nightmares almost every night of my animals being stolen and killed. Police breaking into my bedroom to harass or harm me and nightmares of waking up in my bed on the farm and Judge Holt yelling you're going to prison now!! This isn't your home!!!! etc. I promised all my animal family that our farm was there forever home. That's why the deed is in the company's name but because of injustice I couldn't protect them. I shed tears from loss everyday almost. I am not able to really have contact and see my family because the death threats and stalkers sent to intimidate me etc I don't want my family harmed in this process. There's a lot of deleted scenes of my pain and sorrow and deep rooted hurt from my testimony. I will leave out for the sake of this timeline. But my hope in this is that someone of influence sees this and helps us get justice. I dont know what else to do. I could be arrested again any day now for contempt of talking about this despite my constitutional rights. Praying help comes and fast I only can take so much more. God Bless
